

2025 Public Health Institute of the Epilepsy Foundation

March 12-14, 2025 – Washington, DC

Building Inclusive Communities: Addressing Epilepsy and Educational Disparities

SDOH Focus Areas: Education, Literacy, Stigma within Primary & Secondary Educational Systems

National Partner Support: Consortium of African American Public Health Programs; National Association of School Nurses; Association of Higher Education and Disability; American Public Health Association; Society for Public Health Education; & Transition Now

DRAFT PROPOSED AGENDA

All times are Eastern Standard Time (EST)

Proposed Event Objectives:

- To convene the network, partners, and stakeholders of the Epilepsy Foundation, increasing their knowledge and skills to apply public health practices to address educational disparities experienced by those living with epilepsy.
- To improve the capacity of the network, partners, and stakeholders of the Epilepsy Foundation to address social determinants of epilepsy in educational settings through collaborations and partnerships.
- To increase engagement between the network, partners and stakeholders of the Epilepsy Foundation and the educational workforce, including K-12 personnel, college and university staff, education administrators, and accessibility resource officers, to improve interactions with children and college-aged adults with epilepsy.
